### **Neurological Conditions – *Experiencing the Approach and Potential of Eurythmy Therapy*** **ATHENA - Pre-IPMT Workshop**

This workshop is intended as a collaborative research between medical professionals and eurythmy therapists to deepen our understanding of the working of Therapeutic Eurythmy. Working with the perspective of Anthroposophic Medicine regarding various neurological conditions we will explore the cosmic and soul dimensions of Therapeutic Eurythmy. Much time will be devoted to experiencing the therapeutic gestures and exercises.

**Saturday April 22, 2017 9:00 A.M. – 4:30 P.M.**

With Dr. Siegwand Elsas, head of the Neurology Department at the Arlesheim Klinik, Switzerland .

Fair Oaks, CA 95628

Registration Deadline: April 4, 2017

Fee: ATHENA and AAMTA members: \$70 For non-members \$85.

### **Update on Inner Fire Initiative -**

*" - - a proactive healing community,*

**Inner Fire's** mission is to allow people with soul trauma to heal without meds. This is a year-long residential therapeutic program based on anthroposophy. The first group of seekers recently graduated, and it was incredible to experience how they had been able to reclaim themselves and prepare to tackle life in a new way. For many, this program is quite literally a life-saver, and there is nothing quite like it in the world. (see a more detailed description in the attachment)

Currently we are only able to take on 6 seekers at a time, but are looking toward erecting a building in the coming year that would significantly expand the program. We are asking for help in making this vision a reality. Any contribution toward that goal is greatly appreciated. This venture is sorely needed in the world today.

### **Opportunity for Fellowships**

**The Nature Institute** is offering a limited number of fellowships for 2017. The fellowships present an opportunity for individuals to deepen their understanding and practice of the science of phenomena, a science that is contextual, qualitative, and holistic, and which forms the basis of our work at The Nature Institute.

The fellowships are meant for individuals who have some knowledge of this approach to science or in professions in which sciences are taught or applied (e.g. education, agriculture, health professions). Other criteria for participation are that the individuals are self-motivated, early in their careers, and are serious about working with this approach in their own professional settings.

The fellowships will begin on May 15, 2017.

No applications accepted after January 15, 2017
